QUALITY WORK, VALUE & TRUST!

Kitchens

The kitchen is the heart of the home and typically plays a large role in the family dynamic. The complete process of kitchen planning, along with design and installation requires a tremendous amount of expertise. Regardless of whether you choose a traditional look or a more contemporary style, there is nothing we cannot make or supply within your budget. From start to finish, we can handle your complete remodeling project.

We can work together from design through construction and can handle construction, electrical, plumbing, framing, drywall, mechanical, flooring, counter tops and backsplash as well as all required building permits.

PROFESSIONALISM, TRUST AND COMMITMENT.

Dave I enjoyed working with you from beginning to end. I can not say enough about your creative ideas that made my kitchen perfect. The time you spent going over everything with me, gave me all the confidence in the world that I would be completely satisfied with the work.

I can't say enough about your professionalism and high standard of work. There was never a doubt in my mind EVERYTHING was done perfect, not to mention the time line you gave me was right on. I never had to worry about anything thanks to the trust you instilled with your commitment. Thanks again Dave, and I look forward to working with you in the future.

Jennifer Corcoran, Woodbury MN

Bathrooms

Ask a realtor: nothing says "added value" like a newly remodeled bathroom. And with good reason. Who wouldn't want a luxurious soaking tub, or a rain or steam shower? Why not update the design with great new flooring or a vanity made of granite or marble? To improve your resale value — or to create your own personal spa, look to Imperial Home Improvement for your bathroom makeover.

QUALITY WORK, FAST SERVICE AND A GREAT PRICE.

There are three things in the construction business that you can usually pick from... quality work, fast service and a great price. Rarely can you get all three but you can count on it from Dave Johnson.

Shannon Marry, Eden Prairie*

Lower levels

It's not called "the basement" anymore. Now your lower level can be a cozy retreat, a bright and interactive play area, a fully-appointed au pair or mother-in-law space — even a great place to entice teenagers to stay at home and invite friends to the game room, media room or the home theatre. If it's time to expand your living space — and your lifestyle —

METICULOUS PRECISION, CREATIVITY AND SATISFACTION.

Dave Johnson did all of the woodwork for our basement finishing project. We couldn't be happier with the quality of the work and materials; everything turned out beautiful— doors, trim, oak ledge, oak wrap, bathroom cabinets, and a custom computer/study nook for our two little guys. We can attest to Dave's meticulous precision, his care and creativity, and his concern for our satisfaction. Our basement is now our favorite part of the house! We would be happy to use Dave's services again, and to recommend him to anyone looking for the best in top quality workmanship.

*Sincerely,
Paul and Lessie Hooverson, Shakopee*
